The second way, if your computer has a microphone, is to click the little person at the top of your screen (essentially raising your hand). When called upon, your microphone will be un-muted.

Jill Logan: Can you talk about minors who are pregnant and when the minor has minor parents

Greg Loeben: In AZ when a teen has a baby, what are the decision making rules? Is it that the teen parent has decisional authority for the baby, but not herself?

Greg Loeben: Generally speaking how necessary is a psych consult to make a clinical decision that patient lacks decision making capacity?

Mary Drago: Thank you all for attending this webinar!
